General Settings

Feed Name *	Mimovrste

Internal name for this feed (not visible to partners)

Business Partner Name	mimovrste

Name of the business partner this feed is for

URL Key *	mimovrste

Unique key for the feed URL. Used in the generated file name.

Feed URL	https://b2b.koncern.si/media/xmlfeed/mimovrste.xml

Full URL to access the generated feed file. Generate the feed first to access this URL.

Description	Uvoz na Mimovrste.com

Optional notes about this feed

Enabled	Yes

Disabled feeds won't be generated by cron or accessible via URL

Store View	EIGRESi

Products and attributes will be loaded from this store view

Product Filters

Category Filter	Include Only Selected Categories

Choose how to filter products by category. Include = only products from selected categories. Exclude = all products except those in selected categories. Only one mode can be active at a time.

Include Categories	EIGRESi
	— Audio-video-foto-mobi
	—— Pametne ure in zapestnice
	—— Mobilni telefoni
	—— Polnjenje naprav
	—— Dodatna oprema za televizije

Only products from these categories will be included in the feed.

Include Out of Stock Products	No

Include products that are currently out of stock

Include Disabled Products	No

Include products that are disabled in the catalog

Minimum Price	10.0000

Only include products with price >= this value

Maximum Price	

Only include products with price <= this value

Minimum Stock Quantity	

Only include products with stock quantity >= this value

SKU Pattern (Regex)	

Only include products with SKUs matching this pattern. Example: ^ABC.* for SKUs starting with ABC

Exclude SKUs	4710614533530,4710614532229

Comma-separated list of SKUs to exclude from the feed

Output Format Configuration

Feed Format *	XML

Select the output format for this feed

Root Element Name	izdelki

Name of the XML root element. Example: products, izdelki, articles

Item Element Name	izdelek

Name of each product element. Example: product, izdelek, article

Encoding	UTF-8 (Recommended)

Character encoding for the output file

Custom Header Content	<posodobljeno>{datetime}</posodobljeno>

Custom XML content inserted inside root element before products. Must be valid XML. Placeholders: {date}, {datetime}, {timestamp}. Example: <updated>{date}</updated>

Custom Footer Content	

Custom XML content inserted inside root element after products. Must be valid XML. Same placeholders as header.

Price Options

Global Price Multiplier (Fallback - Priority 4)	5.0000

Default multiplier applied when no specific rules match. Example: 1.2 = 20% markup, 0.9 = 10% discount

Category-Specific Multipliers (Priority 1 - Highest)

Category *	Multiplier *

⸬	—— Mobilni telefoni ▾	1.05
		e.g. 1.25 = 25% markup
⸬	—— Prenosni zvočniki ▾	1.1
		e.g. 1.25 = 25% markup
⸬	—— Dodatki za stole ▾	1.15
		e.g. 1.25 = 25% markup

Add Category Multiplier

Attribute-Specific Multipliers (Priority 2)

	Attribute *	Attribute Value *		Multipli
⸬	pc_procesor - pc_procesor ▾	AMD Ryzen 7 ▾	1.03	🗑
		Select attribute first, then pick value	e.g. 1.15 = 15% markup	
⸬	gpu_graficni_procesor - gpu_graficni_procesor ▾	GeForce RTX 5080 ▾	1.03	🗑
		Select attribute first, then pick value	e.g. 1.15 = 15% markup	

Add Attribute Multiplier

Brand/Manufacturer Multipliers (Priority 3)

	Brand / Manufacturer *	Multiplier *	
⸬	UVI ▾	1.1	🗑
		e.g. 1.30 = 30% markup	
⸬	LENOVO ▾	1.05	🗑
		e.g. 1.30 = 30% markup	

Add Brand Multiplier

Include Tax in Price	◯ No
	Export prices including tax
Price Decimal Places	2 - Two decimals (10.50) ▾
Currency	Euro ▾
	Leave empty to use store default currency

		Name of the XML element in output		Enter custom value			

Add Field Mapping

Schedule & Generation

Cron Schedule (Advanced)
`* */6 * * *`

Cron expression for feed generation. Default "0 */2 * * *" = every 2 hours. Make sure your Magento cron is running properly to execute scheduled tasks.

Last Generated
`2026-02-07 15:56:03`

Product Count
`115`

Number of products in the last generated feed

Feed URL
`https://b2b.koncern.si/media/xmlfeed/mimovrste.xml`

Full public URL to access the generated feed file

FTP Upload

Enable FTP Upload ○ No

When enabled, the generated feed will be automatically uploaded to the FTP server after generation.

FTP Host

FTP server hostname (e.g., ftp.example.com)

FTP Username

FTP Password

Remote File Path

Full path including filename on the remote server (e.g., /public_html/export/feed.xml). Leave empty to upload to root folder with the same filename as the local feed file.

Passive Mode ● Yes

Use passive mode for FTP connections (recommended for most servers)

Use SSL (FTPS) ○ No

Use secure FTP connection (FTPS). Requires SSL support on the FTP server.

Test Connection

[Test FTP Connection]
